PROFILE

Senior Full Stack Developer

- **Strong Background:** Proficient in both front-end and back-end technologies.
- **Front-End Expertise:** Expert in HTML, CSS, and JavaScript for dynamic and responsive web design. Extensive experience with Bootstrap for creating mobile-first websites.
- **Back-End Skills:** Proficient in Python and Django for robust server-side development.
- **Database Management:** Adept at handling various databases, ensuring efficient data storage and retrieval.
- **Server and Network Management:** Skilled in setting up and managing self-hosted servers using Ubuntu. Experienced in configuring network settings that enhance system functionality and creativity, demonstrating capability in both hardware management and network architecture.
- **Project Delivery:** Known for delivering high-quality projects within strict timelines and budgets.
- **Industry Trends:** Committed to staying abreast of the latest industry trends and technologies.
- **User-Centric Development:** Focused on creating dynamic web applications that prioritize user experience.

EMPLOYMENT HISTORY

Senior Full Stack Web Developer, WOOOBA Sport Inc
Sep 2023 — Present

As a Senior Full Stack Developer, my expertise spans a comprehensive range of web development aspects, reflected in my contributions:

- Harnessing Django and Python for data-driven analytics and backend development, ensuring powerful server-side solutions.
- Innovating within the web services space through proficient use of MongoDB, APIs, React.js, and REST APIs.
- Overseeing all phases of the software development lifecycle, upholding the utmost code quality from concept through to deployment.
- Prioritizing landing page optimization and responsive design to ensure a seamless user experience across various devices.
- Leading database development and enhancements for optimized data management and system performance.
- Managing server environments and domain configurations, enhancing site reliability and load efficiency.
- Driving software implementation and debugging processes to boost system functionality and user engagement.
- Facilitating collaboration with cross-functional teams to polish the onboarding process and support ongoing product evolution.

Full Stack Web Developer, Self-employed, Freelancer

Feb 2019 — Sep 2023

Expert Full Stack Developer delivering custom web solutions for small businesses. Skills applied:

- Developing responsive interfaces with HTML, CSS, Bootstrap, and JavaScript.
- Building interactive web applications with React.js for enhanced user engagement.
- Architecting scalable back-ends with Django, ensuring robust performance.
- Managing multiple projects, from e-commerce platforms to business websites, focusing on tailored features and user experience.
